

### **Institutional Learning Outcomes**

Institutional Learning Outcomes are essential employability characteristics that are comprised of transferable skills, attitudes, and abilities expected to be mastered by all WDT graduates. They are integrated throughout the learning experience through courses, lessons, and cocurricular activities.

The following Institutional Learning Outcomes are derived from the objectives of WDT:

**Critical Thinking**- able to deliberately and systematically process information for better understanding and/or to determine sound decisions.

**Technical Knowledge and Skills**- able to apply technical knowledge, demonstrate technical skills, and use technology.

**Communication**- able to communicate effectively in oral or written formats.

**Professionalism**- able to conduct oneself in a professional manner.

## **Institutional Learning Outcomes Potential Indicators**

**Critical Thinking**- able to deliberately and systematically process information for better understanding and/or to determine sound decisions.

- a. Define issues
- b. Gather and evaluate information
