WESTERN DAKOTA TECH

WDT Institutional Learning Outcome	Program Learning Outcomes
Critical Thinking	Students will be able to: • **Quality Improvement**: establish the quality and safety of health care systems by evaluating data to monitor the outcomes of care processes and using improvement methods to design and test changes
Technical Knowledge and Skills	Students will be able to: • **Safety:** demonstrate safety measures by engaging in system effectiveness and applying individual safety measures • **Evidence-based Practice**: deliver optimal health care by integrating best current evidence with clinical expertise and integrating evidence-based practice with patient/family preferences and values.
Communication	Students will be able to: • **Informatics:** employ informatics to communication with care teams, manage knowledge, mitigate error, and support decision making
Professionalism	Students will be able to: • **Teamwork and Collaboration:** demonstrate teamwork and collaboration by functioning effectively within nursing in inter-professional teams, engaging in open communication and mutual respect, and applying shared decision-making to achieve quality patient care • **Patient-Centered Care**: provide patient-centered care by providing compassionate and coordinated care based on respect for patient's preferences, values, and needs
